Herb,

It was a pleasure working with you during our store renovation project. We had a long store with much needed attention and large windows in the front. Once you came in and took measurements, we were amazed at the timing and the unique plan you presented Tena's with.

Daily, customers are complimentary on the layout, the lighting, the feel, and look of the store

I would recommend Store Design and Fixturing to anyone in the jewelry industry looking to remodel or design for a new store.
